

ALUCA
FOR
VOLKSWAGEN

PREMIUM VEHICLE RACKING SYSTEMS

THERE ARE VEHICLE RACKING SYSTEMS. AND THEN THERE'S ALUCA.

LIGHTWEIGHT

Low unladen weight enables you to use storage capacity more effectively.

CUSTOMISABLE

Each vehicle can be configured to match your requirements.

ROBUST

Components and vehicle racking systems that boast high load-bearing capabilities.

DURABLE

Aluminium is shape-retentive and corrosion-resistant.

RECYCLABLE

Because we take the environment seriously.

CUSTOMER-FOCUSED

Professional representatives in your area.

MADE IN GERMANY

Outstanding product quality to ensure a long service life for your vehicle racking system.

WARRANTY

8-year warranty – tested and certified for your safety.

ALUCA SYSTEM

MOBILE WORKSHOP

Lightweight mobile workshop for your Volkswagen T6.1 and Crafter

Our vehicle racking systems are exceptionally adaptable. Whatever your requirements and preferences, we offer you an industry-specific and customisable storage system for your commercial vehicle. In order to meet the vehicle racking needs of the full spectrum of industries, we have created a product range with various lines. When it comes to module variety, we offer 29 installation heights, five installation depths and eight bay widths.

YOUR BENEFITS

- Organised equipment – optimised working procedures – improved productivity
- Boundless upgrade options – outstanding flexibility – customised vehicle racking systems
- Optimised use of space – easy access – minimum time spent searching

ALUCA DIMENSION 2

WITH UNDERFLOOR SYSTEM

Optimised use of space in your Volkswagen Caddy

Compact city runabouts are on the rise. Heavier traffic, a shortage of parking spaces in city centres and cost pressure may result in large vans being replaced with more compact commercial vehicles. The smaller the cargo area, the more flexible and efficient the vehicle racking system needs to be. Our ALUCA dimension2 underfloor system creates additional storage space below the cargo area while ensuring order and ergonomics in the compact class. A choice of over 1,000 accessories maximises the functionality of your racking system.

YOUR BENEFITS

- Additional storage space below a fully utilised cargo area
- Maximum payload, minimum unladen weight
- Ergonomic removal and replacement of items in the drawers outside the vehicle

START. WORK. PRO.

RACKING PACKAGES

Customised and ready-to-install ALUCA vehicle racking systems for Volkswagen commercial vehicles

Our pre-configured, ready-to-install vehicle racking systems are proven favourites of customers in numerous sectors. Let it transform your Volkswagen commercial vehicle into a perfectly organised mobile workshop. Depending on the size and model of the vehicle, you can select vehicle racks from the ALUCA Start, Work and Pro ranges to create the perfect solution for your vehicle. Interested? Our partner in your region will be happy to advise you.

ALUCA EASY-BOX SERIES

CASES AND BOXES

We have developed the Easy-Box series in order to make your everyday work much easier and provide the best possible support for your daily business activities. For tools, consumables or a wide range of accessories: the ALUCA case and box portfolio offers you various stowage options for your equipment, and makes sure that it is all safely packed away and protected against damage during transport.

YOUR BENEFITS

- Optimal overview of your entire working materials in the vehicle racking system
- Quicker access to contents and greater efficiency of working procedures
- Cases and boxes can be combined with each other to meet the specific requirements of various sectors

RACKING OPTIONS

ALUCA ACCESSORIES

Boasting many years of experience as a supplier of racking systems for Volkswagen vehicles, we offer a broad range of services: from the installation of floor panels and innovative shelving systems through to cladding and vehicle electronics. Whether side panel cladding, a mobile power supply, lashing rails, roof racks or other accessories, we will organise your commercial vehicle and transform it into your mobile workshop.
